System Investigation
MSc project 2021/11
Yihan Liao

The main aim of the experiment was to investigate the suitability of these web pages *[restate the main aim of the experiment].* However, I was particularly want to know how long you use for each task, and whether you appeared confused at any time about which links to follow. I wanted to know how easy the pages are to navigate *[if applicable, explain any other, related aims of the experiment, and any particular data collected].*

Do you have any comments or questions about the experiment? *[allow the participant to ask comment or ask questions].* Please take note of my email address and please let us know if you have any further questions about this experiment *[give contact details, and encourage further comments].* Thank you for your help *[thank the participant].*
